Summary

Passionate about leveraging programming and artificial intelligence to develop innovative solutions for real-world challenges. Skilled in Java and hands-on project development, with a strong focus on continuous learning, problem-solving, and creating meaningful impact through technology.

Education

B.E. Electronics and Communication Engineering

VSU COLLEGE OF ENGINEERING TECHNICAL CAMPUS— 2023–Present

CGPA: 8.5 / 10

HSC | P.K.D. Matric Higher Secondary School.

2022 - 2023 | **Percentage:** 77%

Skills

- Programming: Java script ,java
 - Web Development: HTML, CSS
 - Tools & Technologies: Raspberry Pi
 - Core Skills: Digital Electronics
 - Soft Skills: Teamwork, Communication, Problem-solving
-

Projects

- **AI based Drowsiness Detection System using OpenCV**
Developed an AI-powered drowsiness detection system using OpenCV and computer vision techniques, with OpenAI-assisted algorithm selection to improve fatigue detection accuracy and real-time alert generation.

- **Real-Time Light Pulse Frequency and Total Count Measurement using Raspberry Pi**
Developed a system to detect and measure light pulse frequency using sensors and
-

Achievements

- Presented a paper on **(drowsiness detection using open cv)** at **(KPR COLLEGE OF ENGINEERING)**
-

Experience

CLD Automation — *Intern*

- Developed foundation skills in Java and SQL through practical application
 - Explored fundamentals of front-end development to enhance user experience
 - Participated in real-time workflow and team collaboration to support project
-

Certifications

- **Fundamentals of Java** – Infosys Springboard
-

Languages

- English
 - Tamil
-

Interests

- Sports
 - Problem-solving
 - Singing
-

Declaration
